Subject: C.H.I.P.s

To Whom It May Concern;

This let is to let you know how important C.H.I.P.s is to my family. My husband and I have been married 30 years and raised 5 kids. All our kids are grown and have there our lives . We have 5 grandchildren. Ten years ago my husband lost his job of 10 years at Weismans . Due to downsizing. At that time we were left with no health insurance. I have done Day Care for 25 years. We still have no insurance for the two of us. It is hard for a 40 year old to find a job with benefits. In July of 2001 our lives changed dramaticly. Our Our middle daughter and her husband we arrested for having a meth lab. Our two year old granddaughter came to live with us. We had no clue they were into drugs. In September of 2001 our son-in-law was killed in a traffic accident and our daughter was seriously injured. She had a punched lung, cracked pelvis and a broken femur. Thank Thank God she has recovered. But the drug problem got worse. She in now in pre-reliese and we are raising her 2 children. She had another child while on drugs, Gia is 6 and Brianna is 3. Gia's dad is dead and we don't know who Brianna's dad is. Gis receives Social Security benefits and Brianna receives \$8.00 a day from the state. We do not spend any of the girls money, we save it all for their college. Because of there mother

drug use, both the girls have health concerns. Gia has caps on half of her teeth and wears glasses. Brianna's lungs were not fully developed and has a low amun system and also a anger problem. The doctors say it is because of there mother drug use when she was pregnant. Without Without C.H.I.P.s Gis would have no insurance. I feel this is a wonderful program!

Thanks for listening.
