Great Falls, MT 59404

Dear Chairman & Committee Members:

I am a single, low-income mother who works full-time. I have one (1) child who resides with me. I do not have any health benefits offered for myself or my child through employment and neither my daughter or I qualify for Medicaid. My child is covered, fortunately, through the BLUECHIP program and has been covered for about the last 2 years. Knowing that my daughter is covered through the BLUECHIP program is of great peace of mind for me. Just recently she has had to start taking a prescription that cost about \$100.00 a month. This would be a significant dent in my small monthly budget but thanks to the BLUECHIP program, I just have a small co-pay that I have to pay every month when I get her prescription filled.

Sincerely,

  
Kimberly Cutler
