MEMORANDUM

TO: Ann Bauchman, CSD
FM: Faye Bergan, Reserved Water Rights Compact Commission
DT: January 10, 2005
RE: Contract Services

The Reserved Water Rights Compact Commission sunsets on July 1, 2009. At the last Compact Commission Meeting in December, 2004, we began the process of identifying work loads and timelines to complete our projects prior to the sunset date. We have identified several areas where having money for contract services is necessary for us to complete our work, either because of staff limitations or (in most instances) a need for expertise we don't have and can't reasonably get through other agencies. A list of projects that need contract services funding is attached. Only the highest priority items made this list.

Please call if you need any additional information. Thank you.

Reserved Water Rights Compact Commission
Contract Services 2006-2007

| | |
|---------------------------|-----------|
| Engineering services | \$115,000 |
| Biology/Water quality | \$60,000 |
| Mediation services | \$20,000 |
| Total contracted services | \$195,000 |
