regulations and is not subject to municipal subdivision regulations;

(b) the road is a gravel road;

(c) the surveyor inspecting the road is not the same surveyor and is not financially affiliated with the surveyor who prepared the plat; and

(d) the specifications of the road under the county subdivision regulations require no more than:

(i) a specified height of base or pit run material;

(ii) a specified height of finish gravel;

(iii) a specified width of the road surface;

(iv) a specified width or depth of materials for driveway approaches;

(v) that driveway approaches have a culvert;

(vi) a specified compaction rate; and

(vii) a specified clearance distance on the right-of-way.

(4) If the conditions in subsection (3) are satisfied, a registered land surveyor may make an inspection to ensure that turnouts, cul-de-sacs, or other similar road features are the appropriate size and height and have the appropriate compaction rate.

(5) A registered land surveyor may not be prohibited from inspecting features of the road or right-of-way under this section that are incidental to the primary purpose and are relating to measurements of distances, materials, clear zones, or similar regulations."
