Re: HB 293

Dear House Natural Resources Committee Members:

The Fishing Outfitters Association of Montana (FOAM) supports efforts to acquire and maintain public fishing access for our clients, our services, and our own and other Montanan's enjoyment. HB 293's consideration of public access to our rivers, streams, and other waters as part of growth management plans makes sense to us. We urge the committee members to vote 'do pass' on HB 293.

Thank you very much.

Robin Cunningham
Executive Director
FOAM
