Re: HB 782

EXHIBIT 13
DATE 3.23.05
HB 782

On Motion Issues

The following categories of issue remarks are added to claims as a result of examination.

- Amendment
- Conveyance
- Implied claim
- Duplicate
- Decree exceeded
- Diversion means
- Flow rate
- Fee insufficient
- Ownership
- Gray area
- Period of use
- Place of use
- Point of diversion
- Type of right
- Priority date
- Purpose
- Reservoir
- Source
- *Supplemental rights
- Volume

60 GPM/Acre combined

*Of these categories, I would not call in supplemental right issues. These remarks were to note the potential for incremental development; if that were the case there would be a remark in another category noting the issue.

All the other issues could have a direct impact on the ability to enforce the rights if required.
