Dear Dee,

The information you requested of me at the State Ad. hearing on Thursday. The increased cost to Butte-Silver Bow would be in excess of \$30,000 to fund HB426. BSB has 42 employees and of those 41 would be eligible for overtime, and holiday pay and approximately 18 would be eligible for shift differential. I am in contact with our Chief Executive and he is researching the effects. Bill Dove and myself will be in Helena on Monday, and would like to take a moment of your time to speak with you about the bill. We are also researching the cost to other cities and will have that information for you on Monday. Thank you. Jerry Williams.
