

# PRODUCTIONS FILMED OUTSIDE MONTANA

EXHIBIT 2  
DATE 2-16-05  
HB 584

Film productions listed below have a Montana connection, i.e. the story is set in Montana, Montana was a possible film site (based on locations in the script), or Montana Film Office provided information and assistance to the production company or studio. Ultimately, however, the determination of where to film each production was a monetary decision, and was based on financial incentives available to the filmmaker.
