SB 48

Attention Karl Waitschies:

Karl, this letter is in reference to House Bill #48 and all other tax bills our legislature is thinking up this year.

Please keep one thing in mind when trying to come up with more and more taxes, if "HELENA" can't afford it, neither can the businesses of Montana.

Again, please consider what all the other businesses in Montana have to do, and that is, work with the money you have and quit spending money,,, none of us has.

Until "Helena" has a formula to increase the profits of Montana businesses, without losing our businesses, please, please, no more nickle & dime taxes. Use the energy "Helena" has been spending on TRYING to find more taxes, and use this ENERGY, on utilizing what money they already have to work with.

Sincerely,

Jeffrey A. Love
