House Taxation Committee

Re: SB 513 and SB 520

Dear Members:

You are about to make decisions on these two tax bills that I think would be mistakes if enacted. We all know our tax code is too complicated now and these two bills make it even worse. These bills are confusing and ambiguous. We don't need another way to calculate any more taxes on corporations or individuals and we don't need a law that rather than prevent tax fraud will more likely create tax fraud. If you really want to prevent tax fraud make the tax laws simple not complicated. We, Montana Taxpayers, do not want to hire tax attorneys to file our tax returns. I vote, NO, and I ask you to do the same.

Sincerely,
Ken Williams
President
