Re: HB 269

House Fish, Wildlife & Parks Committee Members:

The Fishing Outfitters Association of Montana (FOAM) supports efforts to acquire and maintain public fishing access for our clients, our services, and our own and other Montanan's enjoyment. HB 269 would keep current access sites available through a simple, workable mechanism, one that deserves the committee's support and 'do pass' vote.

Thank you very much.

Executive Director
