To the Montana State Electrical Board:

We the undersigned people understand that in accordance with Montana Code Annotated 37-68-101, you are charged to:

- (1) protect the health and safety of the people of this state from the danger of electrically caused shocks, fires, and explosions;
- (2) protect property from the hazard of electrically caused fires and explosions;
- (3) establish a procedure for determining where and by whom electrical installations are to be made;
- (4) assure the public that persons making electrical installations are qualified; and
- (5) insure that the electrical installations and electrical products made and sold in this state meet minimum safety standards.

If the Administrative Rules Committee recommendations for unlicensed practice stand, we believe that the Montana State Electrical Board will be in violation of Montana Law by not adhering to MCA 37-68-101. The safety of the citizens, protection of property and qualified installations are matters that should not be taken as lightly as has been recommended.
