Please submit petition to the Electrical
 Board meeting and Administrative
 Rules Committee Meeting.

To the Montana State Electrical Board & Administrative Rules Committee:

We the undersigned people understand that in accordance with Montana Code Annotated 37-68-101, you are charged to:

- (1) protect the health and safety of the people of this state from the danger of electrically caused shocks, fires, and explosions;
- (2) protect property from the hazard of electrically caused fires and explosions;
- (3) establish a procedure for determining where and by whom electrical installations are to be made;
- (4) assure the public that persons making electrical installations are qualified; and
- (5) insure that the electrical installations and electrical products made and sold in this state meet minimum safety standards.

Montana Code Annotated 50-60-603 states that the National Electrical Code is adopted by the Department of Labor of which you are under. If you allow any electrical installations contained in the National Electrical Code (not exempted by Montana Law) to be done by unlicensed individuals, we believe that the Montana State Electrical Board will be in violation of Montana Law by not adhering to MCA 37-68-101. The safety of the citizens, protection of property and qualified installations are matters that should not be taken lightly.
