

Today we will put a face on the persons that are involved in the elevator trade.

All you will need to do to put a face on the people this bill protects is to look in billfold. There you will see a picture of your face on your drivers' license, the faces of the husbands or wives children or grandkids, nesses, or nephews, Brothers, Sisters, or Parents. The people you care about most.

In short the purpose of SB 412 is

To provide for safety of life and limb

To promote safety and awareness

To ensure safe conveyances

To reduce the probability of serious and preventable injury and exposure to unsafe conditions for the people of Montana

To insure that the elevator personal performing the work covered by SB412 are familiar with the components and equipment of conveyances

To establish a minimum standard for licensing of Elevator Mechanics and Elevator Contractors
