SENATE EDUCATION
EXHIBIT NO. 20
DATE 2-7-05
BILL NO. SJ-8

To whom it may concern:

This letter is being written to express my disapproval towards Senate Joint Resolution #8.

This bill would take away the ability of teachers to teach a complete study of science. Teachers should be allowed to teach all that is out there, not just the narrow beliefs of some.

Please do all you can to defeat this Resolution. It would make very bad law.

Thank you in advance for taking the time to listen to my concerns.

Robert Reed
