

ALERT SB 152: A request from Senate Education and Cultural Resources
Chairman Don Ryan

SENATE EDUCATION

EXHIBIT NO. 8

DATE 2-14-05

BILL NO. SB-291

I need your help to explain to the legislators that all people who are home schooling are not doing a better job than public schools.

There are stories out there that need to be heard to protect children from "educational neglect."

If you have a story or situation you have encountered, please let me know!

The bill will be up in about 1 1/2 weeks.
