

Amendments to Senate Bill No. 256  
1st Reading Copy

Requested by Senator Ken Toole

For the Senate Energy and Telecommunications Committee

Prepared by Casey Barrs  
January 31, 2005 (1:16pm)

1. Page 10.

**Following:** line 12

**Insert:** "(5) Notwithstanding other net metering provisions that might potentially conflict, the commission shall establish, by rule or tariff process, the requirements necessary to ensure that:

(a) customer-generators are fully compensated for the value of their power production to the utility system; and

(b) costs related to the customer-generators are not shifted to the utility or other customers or customer classes."
