

# Montana Conservation Voters

Senate Energy & Telecomm. Comm.  
Exhibit No. 10  
Date 2.15.05  
Bill No. S.B. 415

SB 415

Montana Conservation Voters is working this session to help coordinate the legislative efforts of conservation groups across Montana.

Collectively, conservation groups have identified a handful of bills that are a priority, which we call our Common Agenda, and this is one of our top priority bills for the session. The thousands of members who are part of these groups include ranchers and farmers, sportsmen, recreationists, business people, families and young people. Many of these groups have testified here today.

The conservation community chose this bill as a top priority because of its emphasis on sustainable, renewable energy, which we think must be part of Montana's energy future. We support the bill, the larger conservation community supports the bill, and we urge your support.

Thank you.
