

Dear Mr. Chairman and Members of the Fish and Game Committee,

Please vote against House Bill 390.

I have been to the capitol before to watch other hearings, and it must cost a lot of money to have you all sit and listen to each bill. You also have lots of important bills to work on. This bill is a waste of tax money and your time. A state insect doesn't do anything to protect our rights and freedoms so we don't need it. Please stand up against unneeded laws.

Eli Ticknor (age 11)
