

EXHIBIT NO. 7

DATE 3/22/05

BILL NO. HB 390

Mr. Chairman and Members of the Fish and Game Committee,

Please don't make more laws that we don't need. This bill doesn't protect or give rights to anyone.

Montana doesn't need a state insect. We don't want to have tons of unneeded laws, if we did, we would move to California!

Montana already has a state butterfly, a state bird, a state animal, a state fossil, and a state fish. That is enough. Montana is already known for it's cool wildlife, this won't do anything to promote our state.

Please vote against House Bill 390. Thank You.
