

EXHIBIT NO. 2DATE: 4/5/05BILL NO. HB 673

Dear Chairman and committee members

I'm Raven Songer and I'm 14 ½. I would like my parents to be able to teach me Driver's Ed. If they are not able to. I will have to wait until I'm 16 to get my drivers license, because of the distance, cost, and time involved in getting me to and from Drivers Ed.

I will be very disappointed if it turns out that way. Because I am really looking forward to getting a job in town this summer, and I won't be able to if I can't drive. I think my mom and dad would do a very good job teaching me to drive. They love me and care about my safety so I know they would not let me drive alone until they were sure I was ready.

My dad drives for UPS. and has already taught me many things he has learned.

Thank you for listening to what I have to say, I appreciate your time.
