

59th Montana Legislative Session
Wednesday, January 26, 2005
Rachel Roberts, Government Affairs Lobbyist
Montana Family Foundation
Proponent for Senate Bill #252

Statistics show that no fault divorce has been a colossal failure and extremely damaging to families in Montana and across the nation.

While the divorce rate was slowly creeping up in the early sixties, the curve went exponential with the advent of no fault divorce. Leaving its wake of broken families.

Senate Bill 252 affords some measure of justice to the injured spouse when a marriage vows are broken.

Passage of this bill reiterates that marriage is not a contract to be entered lightly and that the parties of marriage will be held accountable once they've pledged their fidelity to each other.

Please vote to protect families and strengthen the institution of marriage.

Please vote for Senate Bill 252.
Thank You
