BILL NO. SB203

I'm a young professional woman in Missoula and I fully support SB 203, presented by Greg Lind to promote insurance providers to cover women's prescriptive contraceptive drugs, devices and services, as approved by the USDA. Too, often women are found at a disadvantage when it comes to health coverage for particular health needs. Insurance coverage for contraceptives will help alleviate the financial burden for women, when too often times, designer drugs for men are covered with no arguments or recourse.

Thank you.

I urge you to support the passage of SB 203

Sincerely,
Molly Moody
