

SB 324 Amendment
Requested by DPHHS

EXHIBIT NO. 5DATE: 2-9-05BILL NO. SB 324

1. July 1 effective date.
To allow the department enough time to organize and deliver benefits by January 1, 2006.
2. Change to page 4 – secondary discounts.
The creation of a secondary discount will depend on sufficient rebates to fund the additional discount level. This amendment lets the department adopt rules and provide secondary discounts if sufficient funds are available.
3. Changes to page 6 – preferred drug list. This change will allow the department to conform the preferred drug list for the discount program to the process currently used for the Medicaid preferred drug list. In specific, it allows for a “cost effectiveness” factor to be used in adopting the preferred drug list for the discount program.
