To Rose Hughes:

We, a few concerned family members with family residing at Parkview Care and Rehab, wish to oppose SB446. We feel that our family members would be better served by a Family Council that is organized according to State and Federal mandates presently in place. The current council is made up mostly of "friends of residents" which has caused many who should be there to quit coming. They feel the "friends" are taking over the organization. Many do not feel they can openly discuss problems their loved ones may have because of their presence. We feel that those not having family members residing here should not be privy to information we may wish to discuss.
