

MAJORITY CHAIR - MEMBERS OF THE COMMITTEE

I COME <sup>BEFORE</sup> TO YOU IN SUPPORT OF  
THE APPOINTMENT OF BURL FRENCH

I AM

~~My name is~~ Roy Morris, I am a petroleum wholesaler and retailer in Butte. I've known Burl French for over 20 years. We've contracted with his company, Northwest Fuel Systems to install tanks, dispensers and to do Environmental compliance work. I've hired and continue to hire Mr. French because of his integrity and good service. While many companies do similar work at similar cost I've found that Mr. French and his employees truly stand behind their work and products. If something isn't right, doesn't operate they way we thought it would or needs to be repaired in or out of warranty Mr. French will make it right and keep after it until the customer is satisfied. That means a lot to a small business person when I'm dealing with environmentally sensitive products. I've also had occasion to come before the Petroleum release board while Mr. French served on that board. In the meetings I attended Mr. French was attentive, informed, asked thoughtful questions and made objective decisions. Over the many years that I've know Mr. French he has always dealt with me or anyone I know of fairly and honestly. I would guess that this committee has many fine and qualified individuals that come before you. Many people could serve the state as well as Mr. French but not many could serve the state better, more fairly, more objectively or would work harder than Mr. French. I can say this because I've known him for a number of years and that's been my honest experience with Mr. French.

PLEASE VOTE TO ~~KEEP~~ CONFIRM <sup>Mr. French</sup> APPOINTMENT
