

SENATE STATE ADMIN.

EXHIBIT NO. 1

DATE 4.13.05

FILE NO. SR15

April 6, 2005

To: Honorable Brian Schweitzer

I am writing to you to address the concerns about Shane Colton's knowledge and experience with a cattle breeding operation.

My name is Keith Glass and I have been ranching and farming in Denton, Montana all my life! Over the years, I have attained such recognition as "American Farmer" with Future Farmers of America and became involved with the U.S. Government in narcotic crop control at MSU. Hence; I feel qualified to comment on Shane's involvement with cattle on my own ranch in Denton. Mr. Colton has an understanding of the workings concerning cow-calf operations. He has assisted my grandparents in the past, caring for cattle in my absence, which I appreciate tremendously.

Shane definitely has an understanding of the intimate workings within a cattle operation.

Yours Truly,

Keith Glass

To: Honorable Brian Schweitzer

EX1

I am writing to you to address the concerns about
I have Colton's knowledge & experience with a cattle breeding
operation. My name is Keith Glass and I have been ranching
and farming in Denton all my life! Over the years I have
attained such recognition as "American Farmer" with Future
Farmers of America and become involved with the U.S.
Government in mandatory crop control at MSU. Hence, I
feel qualified to comment on I have's involvement with cattle
on my own ranch in Denton. Mr. Colton has a understanding
of the workings concerning cow-calf operations. He has
assisted my grandparents in the past caring for cattle
in my absence, which I appreciate tremendously.

I have definitely has an understanding of the intimate workings
within a cattle operation.

Yours Truly

Keith Glass
