<u>NEW SECTION.</u> Section 4. Approved projects. The commission may issue a loan or grant to a public
 library in the state for an approved project in accordance with the following provisions:

3 (1) A loan or grant may not be made unless the county, city, or town, as appropriate for the public library
4 receiving the loan or grant, appropriates an amount equal to or more than the loan or grant for the same approved
5 project:

(a) from its own funds and not from any federal grant or other federal financial assistance; or

6

7

(b) from private sources that are dedicated for the approved project.

8 (2) The state loan or grant may be paid in installments, as provided in subsection (3), beginning in the 9 fiscal year during which the approved project is accepted by the commission. Whenever a loan or grant is paid 10 on the installment basis, there must be included in the state loan or grant the interest cost actually incurred by 11 the county, city, town, or public library as a result of its having to borrow the state's portion of the total cost of the 12 approved project. The amount of the interest cost must be computed on the actual interest cost paid by the 13 county, city, town, or public library, less any applicable accrued interest, premiums, and profits from investments, 14 over the period of time elapsing between the date borrowed funds are made available and the date of the last 15 installment payment of the state loan or grant. Interest costs incurred by the county, city, town, or public library 16 as a result of having to borrow its portion of the total cost of the approved project may not be considered a part 17 of the total cost of the approved project for the purposes of matching funds required under this section.

(3) A state loan or grant may be provided for up to 50% of the total costs of an approved project, including lease hold improvements, but excluding feasibility studies, plans, or similar activities. Loans and grants must be provided on approved projects during the period beginning July 1 and ending June 30 for up to 3 years or until the approved project is completed, whichever occurs first. Ninety percent of the loan or grant must be payable as provided in this subsection to each public library upon approval of the application, and the remaining 10% must be payable upon completion of the approved project.

(4) An application for a loan or grant must be submitted by the board of trustees of the public library for
which the approved project is contemplated. An application must:

(a) demonstrate that resources are or will be available to provide for maximum utilization of the projectif approved;

28

(b) contain verification in a form acceptable to the

commission that the total cost of the project, exclusive of the state loan or grant, has been or will be obtained;
(c) demonstrate that library operations would be made more economical as a consequence of approval;

Legislative Services Division

14	(2) Administrative costs may not exceed 5% of the total loans and grants. Legal fees and costs
15	associated with collection of debt on principal are not considered administrative fees.
16	(3) A loan repayment period may not exceed 20 years. The commission may seek recovery of the
