30 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MONTANA:

1
2 **NEW SECTION. Section 1. Equitable distribution of revenue from federal aid in sport fish**
3 **restoration program and federal aid in wildlife restoration program -- reporting requirements.** (1) As part
4 of its administrative duties, the department shall expend from the account provided for in 87-1-601(1)(b) up to
5 7% of the funds from the federal aid in sport fish restoration program and the federal aid in wildlife restoration
6 program apportioned annually to Montana for eligible tribal wildlife and fish management programs, as
7 recommended by the tribal natural resources council created in [section 2]. The department may expend not more
8 than 5% of the funds for the administration of any individual tribal management project. Money spent by the
9 department pursuant to the recommendations of the tribal natural resources council for tribal wildlife and fish
10 management programs must be expended for public benefits, which may include tribal public benefits, in
11 conformity with all applicable federal requirements and in the manner provided in [sections 1 through 4].

12 (2) The department shall report to the governor and to each regular session of the legislature regarding
13 the implementation, progress, and success of tribal wildlife and fish management programs funded pursuant to
14 this section. The report must include the tribal perspective on program progress and success, including any
15 comments or concerns of the tribal natural resources council.

16
17 **NEW SECTION. Section 2. Tribal natural resources council created -- membership -- purpose.**

18 (1) There is a tribal natural resources council.

19 (2) The tribal natural resources council comprises nine members, as follows:

20 (a) one appointed by the tribal council of each of the seven tribes in Montana;

21 (b) one indigenous, nonenrolled resident of a reservation, who shall reside continuously on a reservation
22 during the term of office on the tribal natural resources council, to be chosen by the tribal members of the council;

23 and

24 (c) one member who is a representative of the department.

25 (3) A tribal member may be a member of a tribe's natural resources committee.

26 (4) Tribal natural resources council members shall serve voluntarily and without compensation.

27 (5) The tribal natural resources council is created for the express purpose of:

28 (a) identifying needs for projects for tribal wildlife and fish management programs pursuant to [section
29 1]; and

30 (b) determining the priority of projects for tribal wildlife and fish management programs pursuant to

1 [section 3].

2

3 **NEW SECTION. Section 3. Tribal natural resources council -- powers and duties -- proportion of**
4 **distribution.** (1) The tribal natural resources council shall, on behalf of the tribes of Montana, recommend
5 projects for funding pursuant to [section 1] and shall establish priorities for distribution of funds to each tribe. The
6 distribution must be based on:

7 (a) available funds and conformity with any applicable federal requirements regarding expenditure of the
8 money;

9 (b) a list of management priorities developed by the tribal natural resources council after examining the
10 wildlife and fish management programs of each tribe; and

11 (c) immediate needs associated with the wildlife and fish management programs of each tribe, as
12 indicated by the tribal natural resources council member from each tribe.

13 (2) The tribal natural resources council may use technical assistance from a biologist acting as an advisor
14 and compliance inspector on all tribal wildlife and fish management programs that are funded pursuant to
15 [sections 1 through 4].

16 (3) [Sections 1 through 4] do not imply a waiver of tribal sovereignty. The funding and implementation
17 of a tribal wildlife and fish management program pursuant to [sections 1 through 4] does not authorize the
18 department to usurp or infringe in any way upon the authority of a tribe over the tribe's own lands and resources.

19

20 **NEW SECTION. Section 4. Compliance and eligibility process.** All activities and costs of projects
21 proposed by the tribal natural resources council and the department must be submitted to the regional director
22 of the United States fish and wildlife service for approval. Project documents must demonstrate compliance with
23 all applicable federal laws and regulations. The tribal natural resources council or an individual tribe shall function
24 as a subgrantee of the department. All wildlife and fish management activities conducted by the tribal natural
25 resources council or an individual tribe must meet the same documentation requirements and other conditions
26 as any other project submitted for funding under the federal aid programs in [section 1]. Projects proposed for
27 funding must conform to the eligibility process, project criteria, and compliance requirements for federal aid
28 grants.

29

30 **NEW SECTION. Section 5. Contingent voidness.** If a federal court determines that the implementation

1 of [sections 1 through 4] would cause Montana to be ineligible to participate in the federal aid in sport fish
2 restoration program or the federal aid in wildlife restoration program, then [this act] is void.

3
4 **NEW SECTION. Section 6. Severability.** If a part of [this act] is invalid, all valid parts that are severable
5 from the invalid part remain in effect. If a part of [this act] is invalid in one or more of its applications, the part
6 remains in effect in all valid applications that are severable from the invalid applications.

7
8 **NEW SECTION. Section 7. Notification to tribal governments.** The secretary of state shall send a
9 copy of [this act] to each tribal government located on the seven Montana reservations and to the Little Shell
10 Chippewa tribe.
