|---|-----------------------------------|
|---|-----------------------------------|

1 (2), shall:

2 (i) use a systematic, interdisciplinary approach that will ensure:

3 (A) the integrated use of the natural and social sciences and the environmental design arts in planning 4 and in decisionmaking that may have an impact on the human environment; and

5

(B) that in any environmental review that is not subject to subsection (1)(b)(iv), when an agency 6 considers alternatives, the alternative analysis will be in compliance with the provisions of subsections 7 (1)(b)(iv)(C)(I) through (1)(b)(iv)(C)(III) and, if requested by the project sponsor or if determined by the agency 8 to be necessary, subsection (1)(b)(iv)(C)(IV);

9 (ii) identify and develop methods and procedures that will ensure that presently unquantified 10 environmental amenities and values may be given appropriate consideration in decisionmaking, along with 11 economic and technical considerations;

12 (iii) identify and develop methods and procedures that will ensure that state government actions that may 13 impact the human environment are evaluated for regulatory restrictions on private property, as provided in 14 subsection (1)(b)(iv)(D);

15 (iv) include in each recommendation or report on proposals for projects, programs, and other major 16 actions of state government significantly affecting the guality of the human environment a detailed statement on:

17

(A) the environmental impact of the proposed action;

18 (B) any adverse environmental effects that cannot be avoided if the proposal is implemented;

19 (C) alternatives to the proposed action. An analysis of any alternative included in the environmental 20 review must comply with the following criteria:

21 (I) any alternative proposed must be reasonable, in that the alternative must be achievable under current 22 technology and the alternative must be economically feasible as determined solely by the economic viability for 23 similar projects having similar conditions and physical locations and determined without regard to the economic 24 strength of the specific project sponsor;

25 (II) the agency proposing the alternative shall consult with the project sponsor regarding any proposed 26 alternative, and the agency shall give due weight and consideration to the project sponsor's comments regarding 27 the proposed alternative;

28 (III) if the project sponsor believes that an alternative is not reasonable as provided in subsection 29 (1)(b)(iv)(C)(I), the project sponsor may request a review by the appropriate board, if any, of the agency's 30 determination regarding the reasonableness of the alternative. The appropriate board may, at its discretion,

SB0448.03

submit an advisory recommendation to the agency regarding the issue. The agency may not charge the project sponsor for any of its activities associated with any review under this section. The period of time between the request for a review and completion of a review under this subsection may not be included for the purposes of determining compliance with the time limits established for environmental review in 75-1-208.

5 (IV) the agency shall complete a meaningful no-action alternative analysis. The no-action alternative 6 analysis must include the projected beneficial and adverse environmental, social, and economic impact of the 7 project's noncompletion.

8 (D) any regulatory impacts on private property rights, including whether alternatives that reduce, 9 minimize, or eliminate the regulation of private property rights have been analyzed. The analysis in this 10 subsection (1)(b)(iv)(D) need not be prepared if the proposed action does not involve the regulation of private 11 property.

(E) the relationship between local short-term uses of the human environment and the maintenance and
 enhancement of long-term productivity;

(F) any irreversible and irretrievable commitments of resources that would be involved in the proposed
 action if it is implemented; and

16 (G) the customer fiscal impact analysis, if required by [section 1]; and

(G)(H) the details of the beneficial aspects of the proposed project, both short-term and long-term, and
 the economic advantages and disadvantages of the proposal;

(v) in accordance with the criteria set forth in subsection (1)(b)(iv)(C), study, develop, and describe
 appropriate alternatives to recommend courses of action in any proposal that involves unresolved conflicts
 concerning alternative uses of available resources;

(vi) recognize the national and long-range character of environmental problems and, when consistent
 with the policies of the state, lend appropriate support to initiatives, resolutions, and programs designed to
 maximize national cooperation in anticipating and preventing a decline in the quality of the world environment;
 (vii) make available to counties, municipalities, institutions, and individuals advice and information useful

in restoring, maintaining, and enhancing the quality of the environment;

(viii) initiate and use ecological information in the planning and development of resource-orientedprojects; and

29 (ix) assist the environmental quality council established by 5-16-101;

30 (c) prior to making any detailed statement as provided in subsection (1)(b)(iv), the responsible state

Legislative Tervices Division

Authorized Print Version - SB 448

1 official shall consult with and obtain the comments of any state agency that has jurisdiction by law or special 2 expertise with respect to any environmental impact involved and with any local government, as defined in 3 7-12-1103, that may be directly impacted by the project. The responsible state official shall also consult with and 4 obtain comments from any state agency with respect to any regulation of private property involved. Copies of the 5 statement and the comments and views of the appropriate state, federal, and local agencies that are authorized to develop and enforce environmental standards must be made available to the governor, the environmental 6 7 quality council, and the public and must accompany the proposal through the existing agency review processes. 8 (d) a transfer of an ownership interest in a lease, permit, license, certificate, or other entitlement for use

9 or permission to act by an agency, either singly or in combination with other state agencies, does not trigger
10 review under subsection (1)(b)(iv) if there is not a material change in terms or conditions of the entitlement or
11 unless otherwise provided by law.

(2) The department of public service regulation, in the exercise of its regulatory authority over rates and
 charges of railroads, motor carriers, and public utilities, is exempt from the provisions of parts 1 through 3.

14 (3) (a) In any action challenging or seeking review of an agency's decision that a statement pursuant to 15 subsection (1)(b)(iv) is not required or that the statement is inadequate, the burden of proof is on the person 16 challenging the decision. Except as provided in subsection (3)(b), in a challenge to the adequacy of a statement, 17 a court may not consider any issue relating to the adequacy or content of the agency's environmental review 18 document or evidence that was not first presented to the agency for the agency's consideration prior to the 19 agency's decision. A court may not set aside the agency's decision unless it finds that there is clear and 20 convincing evidence that the decision was arbitrary or capricious or not in compliance with law. A customer fiscal 21 impact analysis pursuant to [section 1] or an allegation that the customer fiscal impact analysis is inadequate may 22 not be used as the basis of any action challenging or seeking review of the agency's decision.

23 (b) When new, material, and significant evidence or issues relating to the adequacy or content of the 24 agency's environmental review document are presented to the district court that had not previously been 25 presented to the agency for its consideration, the district court shall remand the new evidence or issue relating 26 to the adequacy or content of the agency's environmental review document back to the agency for the agency's 27 consideration and an opportunity to modify its findings of fact and administrative decision before the district court 28 considers the evidence or issue relating to the adequacy or content of the agency's environmental review 29 document within the administrative record under review. Immaterial or insignificant evidence or issues relating 30 to the adequacy or content of the agency's environmental review document may not be remanded to the agency.

The district court shall review the agency's findings and decision to determine whether they are supported by
 substantial, credible evidence within the administrative record under review.

(4) To the extent that the requirements of subsections (1)(b)(iv)(C)(I) and (1)(b)(iv)(C)(III) are inconsistent
with federal requirements, the requirements of subsections (1)(b)(iv)(C)(I) and (1)(b)(iv)(C)(III) do not apply to an
environmental review that is being prepared by a state agency pursuant to this part and a federal agency
pursuant to the National Environmental Policy Act or to an environmental review that is being prepared by a state
agency to comply with the requirements of the National Environmental Policy Act.

8 (5) (a) The agency may not withhold, deny, or impose conditions on any permit or other authority to act
9 based on parts 1 through 3 of this chapter.

(b) Nothing in this subsection (5) prevents a project sponsor and an agency from mutually developing
 measures that may, at the request of a project sponsor, be incorporated into a permit or other authority to act.

(c) Parts 1 through 3 of this chapter do not confer authority to an agency that is a project sponsor tomodify a proposed project or action.

(6) (a) (i) A challenge to an agency action under this part may only be brought against a final agency
 action and may only be brought in district court or in federal court, whichever is appropriate.

(ii) Any action or proceeding challenging a final agency action alleging failure to comply with or
inadequate compliance with a requirement under this part must be brought within 60 days of the action that is
the subject of the challenge.

(iii) For an action taken by the board of land commissioners or the department of natural resources and conservation under Title 77, "final agency action" means the date that the board of land commissioners or the department of natural resources and conservation issues a final environmental review document under this part or the date that the board approves the action that is subject to this part, whichever is later.

(b) Any action or proceeding under subsection (6)(a)(ii) must take precedence over other cases or
 matters in the district court unless otherwise provided by law.

(7) The director of the agency responsible for the determination or recommendation shall endorse in
 writing any determination of significance made under subsection (1)(b)(iv) or any recommendation that a
 determination of significance be made.

(8) A project sponsor may request a review of the significance determination or recommendation made
 under subsection (7) by the appropriate board, if any. The appropriate board may, at its discretion, submit an
 advisory recommendation to the agency regarding the issue. The period of time between the request for a review

Legislative Services Division

and completion of a review under this subsection may not be included for the purposes of determining compliance
 with the time limits established for environmental review in 75-1-208."

- 3
- 4

## SECTION 4. SECTION 75-1-205, MCA, IS AMENDED TO READ:

5 "75-1-205. Collection and use of fees and costs. (1) A person who applies to a state agency for a
6 permit, license, or other authorization that the agency determines requires preparation of an environmental impact
7 statement is responsible for paying:

8 (a) the agency's costs of preparing the environmental impact statement and conducting the 9 environmental impact statement process if the agency makes a written determination, based on material evidence 10 identified in the determination, that there will be a significant environmental impact or a potential for a significant 11 environmental impact<del>; or</del>. If a customer fiscal impact analysis is required under [section 1], the applicant shall also 12 pay the staff and consultant costs incurred by the office of consumer counsel in preparing the analysis.

(b) a fee as provided in 75-1-202 if the agency does not make the determination provided for insubsection (1)(a).

15 (2) Costs payable under subsection (1) include:

(a) the costs of generating, gathering, and compiling data and information that is not available from the
applicant to prepare the draft environmental impact statement, any supplemental draft environmental impact
statement, and the final environmental impact statement;

(b) the costs of writing, reviewing, editing, printing, and distributing a reasonable number of copies of the
 draft environmental impact statement;

(c) the costs of attending meetings and hearings on the environmental impact statement, including
 meetings and hearings held to determine the scope of the environmental impact statement; and

(d) the costs of preparing, printing, and distributing a reasonable number of copies of any supplemental
 draft environmental impact statement and the final environmental impact statement, including the cost of
 reviewing and preparing responses to public comment.

- 26
- (3) Costs payable under subsection (1) include:
- 27 (a) payments to contractors hired to work on the environmental impact statement;

(b) salaries and expenses of an agency employee who is designated as the agency's coordinator for
 preparation of the environmental impact statement for time spent performing the activities described in subsection
 (2) or for managing those activities; and

Legislative ervices Division

(c) travel and per diem expenses for other agency personnel for attendance at meetings and hearings
 on the environmental impact statement.

3 (4) (a) Whenever the agency makes the determination in subsection (1)(a), it shall notify the applicant 4 of the cost of conducting the process to determine the scope of the environmental impact statement. The 5 applicant shall pay that cost, and the agency shall then conduct the scoping process. The timeframe in 6 75-1-208(4)(a)(i) and any statutory timeframe for a decision on the application are tolled until the applicant pays 7 the cost of the scoping process.

(b) If the agency decides to hire a third-party contractor to prepare the environmental impact statement,
the agency shall prepare a list of no fewer than four contractors acceptable to the agency and shall provide the
applicant with a copy of the list. If fewer than four acceptable contractors are available, the agency shall include
all acceptable contractors on the list. The applicant shall provide the agency with a list of at least 50% of the
contractors from the agency's list. The agency shall select its contractor from the list provided by the applicant.
(c) Upon completion of the scoping process and subject to subsection (1)(d), the agency and the

applicant shall negotiate an agreement for the preparation of the environmental impact statement. The agreementmust provide that:

(i) the applicant shall pay the cost of the environmental impact statement as determined by the agency
after consultation with the applicant. In determining the cost, the agency shall identify and consult with the
applicant regarding the data and information that must be gathered and studies that must be conducted.

(ii) the agency shall prepare the environmental impact statement within a reasonable time determined by the agency after consultation with the applicant and set out in the agreement. This timeframe supersedes any timeframe in statute or rule. If the applicant and the agency cannot agree on a timeframe, the agency shall prepare the environmental impact statement within any timeframe provided by statute or rule.

23 (iii) the applicant shall make periodic advance payments to cover work to be performed;

(iv) the agency may order work on the environmental impact statement to stop if the applicant fails to
 make advance payment as required by the agreement. The time for preparation of the environmental impact
 statement is tolled for any period during which a stop-work order is in effect for failure to make advance payment.

(v) (A) if the agency determines that the actual cost of preparing the environmental impact statement will
exceed the cost set out in the agreement or that more time is necessary to prepare the environmental impact
statement, the agency shall submit proposed modifications to the agreement to the applicant;

30 (B) if the applicant does not agree to an extension of the time for preparation of the environmental impact

Legislative Services Division

statement, the agency may initiate the informal review process under subsection (4)(d). Upon completion of the
 informal review process, the agreement may be amended only with the consent of the applicant.

3 (C) if the applicant does not agree with the increased costs proposed by the agency, the applicant may 4 refuse to agree to the modification and may also provide the agency with a written statement providing the reason 5 that payment of the increased cost is not justified or, if applicable, the reason that a portion of the increased cost 6 is not justified. The applicant may also request an informal review as provided in subsection (4)(d). If the applicant 7 provides a written statement pursuant to this subsection (4)(c)(v)(C), the agreement must be amended to require 8 the applicant to pay all undisputed increased cost and 75% of the disputed increased cost and to provide that the 9 agency is responsible for 25% of the disputed increased cost. If the applicant does not provide the statement, 10 the agreement must be amended to require the applicant to pay all increased costs.

11 (d) If the applicant does not agree with costs determined under subsection (4)(c)(i) or proposed under 12 subsection (4)(c)(v), the applicant may initiate the informal review process pursuant to 75-1-208(3). If the 13 applicant does not agree to a time extension proposed by the agency under subsection (4)(c)(v), the agency may 14 initiate an informal review by an appropriate board under 75-1-208(3). The period of time for completion of the 15 environmental impact statement provided in the agreement is tolled from the date of submission of a request for 16 a review by the appropriate board until the date of completion of the review by the appropriate board. However, 17 the agency shall continue to work on preparation of the environmental impact statement during this period if the 18 applicant has advanced money to pay for this work.

(5) All fees and costs collected under this part must be deposited in the state special revenue fund as provided in 17-2-102. All fees and costs paid pursuant to this part must be used as provided in this part. Upon completion of the necessary work, each agency shall make an accounting to the applicant of the funds expended and refund all unexpended funds without interest."

Section 5. Section 75-20-216, MCA, is amended to read:

25 "75-20-216. Study, evaluation, and report on proposed facility -- assistance by other agencies.
 26 (1) After receipt of an application, the department shall within 30 days notify the applicant in writing that:

27

(a) the application is in compliance and is accepted as complete; or

(b) the application is not in compliance and shall list the deficiencies. Upon correction of these
deficiencies and resubmission by the applicant, the department shall within 15 days notify the applicant in writing
that the application is in compliance and is accepted as complete.

Legislative Services Division

1 (2) Upon receipt of an application complying with 75-20-211 through 75-20-213, 75-20-215, and this 2 section, the department shall commence an evaluation of the proposed facility and its effects, considering all 3 applicable criteria listed in 75-20-301, and shall issue a decision, opinion, order, certification, or permit as 4 provided in subsection (3). The department shall use, to the extent that it considers applicable, valid and useful 5 existing studies and reports submitted by the applicant or compiled by a state or federal agency.

6 (3) Except as provided in 75-1-205(4), 75-1-208(4)(b), and 75-20-231, the department shall issue, within 7 9 months following the date of acceptance of an application, any decision, opinion, order, certification, or permit 8 required under the laws, other than those contained in this chapter, administered by the department. A decision, 9 opinion, order, certification, or permit, with or without conditions, must be made under those laws. Nevertheless, 10 the department retains authority to make the determination required under 75-20-301(1)(c) or (3). The decision, 11 opinion, order, certification, or permit must be used in the final site selection process. Prior to the issuance of a 12 preliminary decision by the board and pursuant to rules adopted by the department, the department shall provide 13 an opportunity for public review and comment.

14 (4) Except as provided in 75-1-205(4), 75-1-208(4)(b), and 75-20-231, within 9 months following 15 acceptance of an application for a facility, the department shall issue a report that must contain the department's 16 studies, evaluations, recommendations, customer fiscal impact analysis, if required pursuant to [section 1], and 17 other pertinent documents resulting from its study and evaluation. An environmental impact statement or analysis 18 prepared pursuant to the Montana Environmental Policy Act may be included in the department findings if 19 compelling evidence indicates that adverse environmental impacts are likely to result due to the construction and 20 operation of a proposed facility. If the application is for a combination of two or more facilities, the department 21 shall issue its report within the greater of the lengths of time provided for in this subsection for either of the 22 facilities.

(5) For projects subject to joint review by the department and a federal land management agency, the
 department's certification decision may be timed to correspond to the record of decision issued by the
 participating federal agency.

(6) The departments of transportation; fish, wildlife, and parks; natural resources and conservation;
revenue; and public service regulation <u>AND THE CONSUMER COUNSEL</u> shall report to the department information
relating to the impact of the proposed site on each department's area of expertise. The report may include
opinions as to the advisability of granting, denying, or modifying the certificate. The department shall allocate
funds obtained from filing fees to the departments making reports <u>AND TO THE OFF ICE OF CONSUMER COUNSEL</u> to

Legislative Services Division

| 1  | reimburse them for the costs of compiling information and issuing the required report."                                 |
