**Subject:** Suggested Amendments for House Bill 774

Representative Glaser,

As I discussed I would suggest the following amendments:

A. Provide that raffles are an exception to 23-5-112 (18)(a) that defines Internet gambling as an Illegal Gambling Enterprise.

B. Provide in the bill or provide rulemaking authority to comply with the "Unlawful Internet Gambling Enforcement Act of 2006" which in providing for "Intrastate Transactions" states:

"(ii) the bet or wager and the method by which the bet or wager is initiated and received or otherwise made is expressly authorized by and placed in accordance with the laws of such State and the State law or regulations include-

(I) age and location verification requirements reasonably designed to block access to minors and persons located out of such State; and

(II) appropriate data security standards to prevent unauthorized access by any person whose age and current location has not been verified in accordance with such State's law or regulations; and"

I would be happy to assist in developing these amendments.
