

EXHIBIT 16  
DATE 4.3.07  
SB 78

3-16-07

House Committee of Fish, Wildlife and Parks

Dear Committee,

I am asking that you vote NO on SB 78. There is no set, agreed upon financial costs for this bill, either for the landowner nor the FWP. Years ago I worked diligently with lawyers and legislators on the original stream access bill---at that time HB 265. We bent over backwards on that compromise bill in order to satisfy all parties. We believed that there would not be further and continued erosion of our property rights. There must be a stop to all of this wrangling that will only cause more lawsuits and hard feelings between the landowners and the recreating public. Please stand firm with a NO vote. Thank you for your time.

Sincerely,

Carol Mosher
