Violence doesn't solve problems. Civilization perfects with reformances...
There's change, improvement, & learning on both sides of human nature over centuries.

A list of circumstantial facts proving the ash & cinder sun-moon-comet roasted surviving dinosaurs eons ago: wolves howl at the moon; through a fog, in winter daylight, the sun exactly matches the size & luminosity of the full moon; the moon matches the sun's daily arc, in parallel So.-West daylight early day settings at September equinoxes & also in the previous (& probably most other) early Springtimes; the dinosaurs were reptiles, like birds (in the early universal energies), they were egg-prolific, there were millions of them, but only 5 or 10,000 dinosaur skeletons on the planet & mountain zones globally are abundant with huge - some 4 m. long - elongated football shaped geologic formations, some of those have wide fan-tailed bases, triangular, of mammalian pregnancy origins & most large boulders resemble digested dinosaurs, & some lie in alignment behind the huge earth-whale forms; alka-seltzer remedies fizzy sore stomachs & upper digestive tracts; sea-shells & fish fossils in mountain zones were spit up by earth whales &/or from dinosaurs' stomachs; the flood anciently happened on a smaller planet, which used to be visible by the second star in the handle of the big-dipper constellation, in conjunction with a triple crucifixion & burn, there were 2 arks, a square & an oval boat &/or barge, Noah's (Israelites) & Zoah's (Zuluites), & Zoah wrote the ancient origins of language abstractly in the log book of the square ark (square cement pyramid stones & rectangular scrolls, & of primal hearth & primal communications then by consciousnesses here eons before us, inspired temporary consciousness mergers; similar to 19th c. inventions of batteries, the telegraph, telephone, light-bulb & phonograph; consistent equinoxes, crop & biologic growth & weather patterns proves orderly goodwilling fish-bird-insects-quadrupeds' universal growth & orbital powerful & ancient & improving (with changed) energies & consciousnesses interactions; some % of clouds are consciousnesses, by weather consistencies... in a T.V.-documentary ≈ 4 or 5 yrs. ago evidenced both Arks: multiple 19th c. newspaper hikers reports of the square wood ark on Ararat, aerial sightings with photographs in the 20th c., & an oval shaped, petrified wood outline of the biblical sizes laying ≈ 17 mi. south (s. or w.) of Ararat in a clearly delineated grass field, a view from above; ancient language origins, temporary consciousness mergers also are evident in some letter shapes, M, N, o, a, & others' expressions of the earth forms, mountains, a predator took with a stick-in-the-mouth (N) & the worrisome comet (a - crashed o). Also expressed in architecture, the roll-back-ricochet shape of fireballs by the pyramids, before any language significance clearly; some butterflies have white comet's shaped spots on their wings; oceanic cuttlefish have octopus-like appendage shaped tongues to grasp & capture fish with extensions, & art forms can factually express conditions of reality, of inspired communications, As the science-not fiction-but-fact of the movie "Tremors" - earth-whale, dinosaur-predator-entity, of snake's ancient ancestors; rock climbing smaller tyrannosaurs young & pterodactyl spirits' ongoing struggles; squirrels with red fringes on fur & arson from their air memories by match factories, trees & history.

Non-violence accumulates harmony. Violence (& revenge) doesn't solve any problems overtime.

Numeric digits & alphabet letters' origins are in temporary consciousness merges w/ intelligences in the universe eons before humans, of fundamentals & expressing, describing, sprouts & crop growth, & digit #2 also, similarly, & of obstetrics; #5: the curve below the open square is #7: a quadruped's nose, or some of fish's gills, & of speed before vehicles & roller coasters; #0: planetary or ovarian; #1: phallic, including non-human concerns of Jupiter, etc., consciousnesses here eons before us. In 1 month, from a 10-13-06 heavy snow in Buffalo, New York, U.S.A., there have been 4 large electric power failures, 3 in the U.S.A. & 1 in Europe - reported - strong wind & rain storms on the middle & northern U.S. coasts, Portland, Oregon 11-13-06, & each geographically & historically near metal fur trapping areas, similarly of large lizard & cat predator proximities, the war in Iraq & the previous, ≈ a decade of ice age weather trends, pervasive universal energy cause & effects of saurians & less than 72° warmth naturally, of excess cool air conditioning over decades, like DNA parallel communications by ancient & other than human intelligences of warnings of impending blights, crop growth failures, without warmer health & sensitivities of DNA & equinoxes in intelligent order, for replacing militarization with farming the tropics large saurians & cat hunts & civilized goods in place of munitions. A 2:4:2 pattern of 2 pairs of significant, near before & following the 4 electric failures, 10-8 & 11-5, 11-14 & 15, earthquakes reportedly large & / or Indonesia & Japan. 11-16-06: North Carolina, U.S. coastal, by the Wright Bros. National monument at Kitty Hawk, N.C., a fatal tornado, Riegelwood, N.C., 185 miles from Kitty Hawk, straightly. Recall an 802 day time span, 6-3-01's equilateral triangular electric storm pattern, southern U.S., Tn.-Al.-La. (100 days before 9-11-01) & 8-14-03's Electric failures in Canada & the U.S. around Lake Erie, & N.Y. City. Also, an 82 d. ts., 9-30-06 a Canadian highways bridge collapse, & a Boston's highway, near the airport, tunnel-roof-collapse 7-10-06, also 11 wks. 5 d. & / or 2 mo. 21 d. Proof(s) that Civilization must perfect with Reform(s); Clouds are Conciousnesses; Pets know Calendars. July 2006 Mt. 59601 Mike Bidoot

Train derailment (d-rls.) patterns, of universal energy cause + effects, dates from tv news reports (* elseways, collapse(s) apocyliptically, exponentially) are clear + evident of non-coincidental other than human influences, + by observing the time spans between them listed below, even though all the U.S. + world d-rls. since Nov. '05 aren't presumably usually included in tv reports, most + many are, + those that aren't wouldn't significantly diminish the lucid non-random statisical accumulations of multiple + 'obvious' numerically consistent facts considered here - also, ½ or ¼ huge + entire global areas are reasonable enough of an area to sample for signif-icant proofs of non-human intelligences' repeated communications of diminishing controls by them of universal energies, without significant + multiple reforms, affecting national + international intel-ligences on both sides of human nature, human + non-human, responsibilities, learning + DNA similarly.

Of the 14 reported d-rl. incidents I listed, (last line below) copied from TV news reports, from Nov. 22, 2005, earlier the same day a large aquarium opened to the public in Georgia, later that day commuter traffic got stuck on Chicago RR tracks, a train hit cars, at least a few critical injuries occured. Lastly that evening on national tv, at the Bowling Green vs. Toledo college football game, a cotton tailed rabbit appear-red in an end zone, + about 10 mins. later, probably at the opposite end zone (of camera ≠ angles), the offence at the 8 yd. line, near scoring, fumbled unusually about 6 yds. forward thru the center of the line, + the defence recovered. Some days before, I'd sent over a dozen letters to government unspecified Authorities, predicting a series of multiple disasters in 4 days in the last wk. of Nov. '05, + my prediction (≈16) realized, there were a many more than usual quantity of disasters + / or near disasters in those 4 days + one in between (the 26th). I've observed patterns of phenomena, frequency progressions, studies of the "Facts on file" library News Encyclopedia's index: accidents + earthquakes, in the previous year, of 18 + more yrs., books on shelves... proving apocylptic ultimatums + / or of perfecting harmony with non-violent reforms, i.e. insomnia, confusion, + / or 'violence-contemplation' 100% remedial variable quantities of 10-20% sweet wines, + / or exercise + baths... self control, happiness, morality + prevention of violence.

Four of 15 incidents were trains colliding with cars or trucks (two: two), fatalities in each of 4, 11 were d-rls. (probably all non-fatal) Any few incidents I missed wouldn't significantly effect the statisical + obvious facts + validity of the 'matching' numerical analysis following: Two days after the Chicago by Lake Michigan collision, a d-rl. near-by, so. of Chicago not far from a river, on 11-24... then 11-26, d-rl., Scotland, + 11-26, d-rl., Laurel, MT. (at 3:22 AM), 2 days later; 7 mo. 8 days later (220 days), 7-2-'06, 1 d-rl. MT. + a slow non-fatal collision of 2 commuter trains, PA., from 11-24-05, + 11 days later (ts: time span), 12-5-05, d-rl., MT. (Helena). I figured '(the' stats') the time spans beyond a wk. + 4 days between each of the d-rls. + crashs from 11-24-05 to 7-2-06, + approximately / exactly, beyond 98% careful numeric analysis by a poet (I can miss a number or few), of 37 time spans measured in days, I found 11 matching 'digit-11' factorable (evenly divisible by 11) tss (time spans) statisically, logically, i.e. 88 days between 3-3-06 + 5-30-06, 122 days between 1-28 + 5-30; the time spans together look like: 11 d, from 11-24-05; 220 d., 66 d., 122 d., 155 d., 99 d., 44 d., 88 d., 11 d., 11 d; an 11:37, or ≈ 70% probability ratio statisically 'figures' from a 2:1:10 probability of one factor 11 matching pair of digits per time span of the 220 day sample, logically + reasonably, proof of non-human intelligences' volitional equinoxes, crop + biologic growth, + abused + / or forced errors, but communi-cations by those entities by numeric redundant consistencies... like a horse pawing the ground twice + whinnying for
