Helena, MT 59620

Dear Members of the Montana House Transportation Committee,

Eureka Recycling, a Minneapolis based recycling company, has been using a B-20 blend of biodiesel in our entire fleet since April, 2003 with great success. Our current fleet includes 22 recycling trucks that operate 50 hours a week and are parked outside year round. Despite winter temperatures often dipping well below 20 degrees, we have not experienced any problems with our vehicles directly related to our use of bio-diesel.

We use biodiesel exclusively in all our trucks because it is made from a renewable, local resource (soybeans) and it significantly reduces emissions, creating a healthier environment for our employees and communities we serve.

Thank you for the opportunity to express our support of biodiesel. If you have any questions please feel free to contact me at 651-222-7678.

Sincerely,

A handwritten signature in black ink, appearing to read "Alex Danovitch".
