RE: House Bill 378, To Revise Nursing Home Administration Laws

Dear Chairman Cocchiarella:

The Montana Board of Nursing Home Administrators voted unanimously at its January 25, 2007 meeting to support HB 378, To Revise Nursing Home Administration Laws. The Board welcomes the legislation increasing the board's membership to six voting members, three of whom must be nursing home administrators. The increase in the board's size will ensure that quorums are met consistently and that both screening panels and adjudication panels have sufficient members to conduct business.

Thank you for your efforts in guiding HB 378 through the legislative process.

Sincerely,

Lori Henderson, Chair *By JH*
Board of Nursing Home Administrators
