

SENATE PROVISION

EXHIBIT NO. 2DATE 3-30-07BILL NO. HB-40

Representing J.P. Gabriel of Bozeman Montana:

Honorable Senators,

I am the spokesman for the Montana Coalition of Concerned Filmmakers that would like to be here, and would be if asked, but rather than plug the hallways and this room even more and take up too much time I have a list of eighty names of Montana tradesman and craftsmen that work regularly on film and stage projects that all support this bill and wanted their names entered into the record. These are the Montanans that make their living doing what this bill is designed to accomplish, increase filmmaking and video production. This bill has been characterized sometimes as a giveaway to Hollywood producers. We disagree. This is a Montana business and jobs promotion bill. These are people that depend on a consistent and healthy film business in Montana.
