26 **Section 7.** Section 17-1-507, MCA, is amended to read:

1 **"17-1-507. Principles of revenue dedication.** (1) It is the policy of the legislature that a revenue source not be dedicated for a specific purpose unless one or more of the following
2 conditions are met:

3 (a) The person or entity paying the tax, fee, or assessment is the direct beneficiary of the specific activity that is funded by the tax, fee, or assessment; the entire cost of the activity
4 is paid by the beneficiary; and the tax, fee, or assessment paid is commensurate with the cost of the activity, including reasonable administrative costs.

5 (b) There is an expectation that funds donated by a person or entity will be used for a specified purpose. Grants from private or public entities are considered donations under this
6 subsection.

7 (c) There is a legal basis for the revenue dedication. A legal basis is a constitutional mandate, federal mandate, or statutory requirement in which a source of funds is designated
8 for a specific purpose.

9 (d) There is a recognized need for accountability through a separation of funding from the general fund consistent with generally accepted accounting principles.

10 (2) The total funding for a program is a legislative budget and policy issue for which a dedicated revenue provision may not be justified if:

11 (a) a general fund appropriation is needed to supplement the dedicated revenue support for the program or activity; or

12 (b) dedicating a revenue source or portion of a revenue source diverts funds that could be considered a general revenue source.

13 (3) In the consideration of the ~~general~~ appropriations ~~act~~ for each biennium, the legislature shall determine the appropriateness of dedicating revenue to a program or activity under
14 conditions described in subsection (2). The office of budget and program planning shall describe the occurrence in its presentation of the executive budget, and the legislative fiscal analyst
15 shall highlight the issue in the budget analysis and for the appropriations subcommittee considering the revenue dedication."

20 of:

21 (a) a consolidated budget summary setting forth the aggregate figures of the budget in a manner that shows a balance between the total proposed disbursements and the total
22 anticipated receipts, together with the other means of financing the budget for each fiscal year of the ensuing biennium, contrasted with the corresponding figures for the last-completed fiscal
23 year and the fiscal year in progress. The consolidated budget summary must be supported by explanatory schedules or statements.

24 (b) budget and full-time equivalent personnel position comparisons by agency, program, and appropriated funds for the current and subsequent biennium;

25 (c) the departmental mission and a statement of goals and objectives for the department;

3 (i) explanations of appropriation and revenue measures included in the budget that involve policy changes;

4 (ii) matters not included as a part of the executive budget bill but included as a part of the executive budget, such as the state employee pay plan, programs funded through separate

6 (iii) a summary of budget requests that include proposed expenditures on information technology resources. The summary must include funding, program references, and a decision
7 package reference;

8 (f) a report on:

9 (i) enterprise funds not subject to the requirements of subsections (1)(a) through (1)(e), including retained earnings and contributed capital, projected operations and charges, and
10 projected fund balances; and

12 and charges in the internal service fund type must be approved by the legislature in ~~the general~~ a bill providing appropriations ~~act~~ for each agency. Fees and charges in a biennium may not

19 **"17-7-131. Legislative action -- ending fund balance.** (1) The presiding officers of the house of representatives and of the senate shall promptly refer the budgets and budget bills
20 to the proper committees. The budget bill for the maintenance of the agencies of state government and the state institutions must be based upon the budget and proposed budget bill submitted

22 state or the payment of any salaries required to be paid by the constitution and laws of the state.

23 (2) The adopted budget must be limited so that a positive ending general fund balance exists at the end of the biennium for which funds are appropriated."
24

25 **Section 10.** Section 17-7-138, MCA, is amended to read:

26 **"17-7-138. Operating budget.** (1) (a) Expenditures by a state agency must be made in substantial compliance with the budget approved by the legislature. Substantial compliance

1 may be determined by conformity to the conditions contained in the bill providing general appropriations act for the agency and to legislative intent as established in the narrative accompanying
2 the general bill providing appropriations act for the agency. An explanation of any significant change in agency or program scope must be submitted on a regular basis to the interim committee
3 that has program evaluation and monitoring functions for the agency pursuant to Title 5, chapter 5, part 2. An explanation of any significant change in agency or program scope, objectives,
4 activities, or expenditures must be submitted to the legislative fiscal analyst for review and comment by the legislative finance committee prior to any implementation of the change. A significant
5 change may not conflict with a condition contained in the general bill providing appropriations act for the agency. If the approving authority certifies that a change is time-sensitive, the approving
6 authority may approve the change prior to the next regularly scheduled meeting of the legislative finance committee. The approving authority shall submit all proposed time-sensitive changes
7 to the legislative fiscal analyst prior to approval. If the legislative fiscal analyst determines that notification of the legislative finance committee is warranted, the legislative fiscal analyst shall
8 immediately notify as many members as possible of the proposed change and communicate any concerns expressed to the approving authority. The approving authority shall present a report
9 fully explaining the reasons for the action to the next meeting of the legislative finance committee. Except as provided in subsection (2), the expenditure of money appropriated in the general
10 bill providing appropriations act for an agency is contingent upon approval of an operating budget by August 1 of each fiscal year. An approved original operating budget must comply with
11 state law and conditions contained in the general bill providing appropriations act for the agency.

12 (b) For the purposes of this subsection (1), an agency or program is considered to have a significant change in its scope, objectives, activities, or expenditures if:

13 (i) the operating budget change exceeds \$1 million; or

14 (ii) the operating budget change exceeds 25% of a budget category and the change is greater than \$25,000. If there have been other changes to the budget category in the current
15 fiscal year, all the changes, including the change under consideration, must be used in determining the 25% and \$25,000 threshold.

16 (2) The expenditure of money appropriated in the general bill providing appropriations act to the board of regents, on behalf of the university system units, as defined in 17-7-102,
17 is contingent upon approval of a comprehensive operating budget by October 1 of each fiscal year. The operating budget must contain detailed revenue and expenditures and anticipated fund
18 balances of current funds, loan funds, endowment funds, and plant funds. After the board of regents approves operating budgets, transfers between units may be made only with the approval
19 of the board of regents. Transfers and related justification must be submitted to the office of budget and program planning and to the legislative fiscal analyst.

20 (3) The operating budget for money appropriated by the general bill providing the primary appropriations act for an agency must be separate from the operating budget for money
21 appropriated by another law except a law appropriating money for the state pay plan or any portion of the state pay plan. The legislature may restrict the use of funds appropriated for personal
22 services to allow use only for the purpose of the appropriation. Each operating budget must include expenditures for each agency program, detailed at least by first-level categories as provided
23 in 17-1-102(3). Each agency shall record its operating budget for all funds, other than higher education funds, and any approved changes on the statewide budget and accounting state financial
24 system. Documents implementing approved changes must be signed. The operating budget for higher education funds must be recorded on the university financial system, with separate
25 accounting categories for each source or use of state government funds. State sources and university sources of funds may be combined for the general operating portion of the current
26 unrestricted funds."

1 **Section 11.** Section 17-7-139, MCA, is amended to read:

2 **"17-7-139. Program transfers.** (1) Unless prohibited by law or a condition contained in the ~~general bill providing appropriations~~ act for an agency, the approving authority may approve
 3 agency requests to transfer appropriations between programs within each fund type within each fiscal year. The legislature may restrict the use of funds appropriated for personal services
 4 to allow use only for the purpose of the appropriation. An explanation of any significant transfer must be submitted on a regular basis to the interim committee that has program evaluation and
 5 monitoring functions for the agency pursuant to Title 5, chapter 5, part 2. An explanation of any transfer that involves a significant change in agency or program scope, objectives, activities,
 6 or expenditures must be submitted to the legislative fiscal analyst for review and comment by the legislative finance committee prior to any implementation of the change. If the approving
 7 authority certifies that a request for a transfer representing a significant change in agency or program scope, objectives, activities, or expenditures is time-sensitive, the approving authority
 8 may approve the transfer prior to the next regularly scheduled meeting of the legislative finance committee. The approving authority shall submit all proposed time-sensitive changes to the
 9 legislative fiscal analyst prior to approval. If the legislative fiscal analyst determines that notification of the legislative finance committee is warranted, the legislative fiscal analyst shall immediately
 10 notify as many members as possible of the proposed change and communicate any concerns expressed to the approving authority. The approving authority shall present a report fully explaining
 11 the reasons for the action to the next meeting of the legislative finance committee. All program transfers must be completed within the same fund from which the transfer originated. A request
 12 for a transfer accompanied by a justification explaining the reason for the transfer must be submitted by the requesting agency to the approving authority and the office of budget and program
 13 planning. Upon approval of the transfer in writing, the approving authority shall inform the legislative fiscal analyst of the approved transfer and the justification for the transfer. If money
 14 appropriated for a fiscal year is transferred to another fiscal year, the money may not be retransferred, except that money remaining from projected costs for spring fires estimated in the last
 15 quarter of the first year of a biennium may be retransferred.

16 (2) For the purposes of subsection (1), an agency or program is considered to have a significant change in its scope, objectives, activities, or expenditures if:

17 (a) the budget transfer exceeds \$1 million; or

18 (b) the budget transfer exceeds 25% of a program's total operating plan and the transfer is greater than \$25,000. If there have been other transfers to or from the program in the
 19 current fiscal year, all the transfers, including the transfer under consideration, must be used in determining the 25% and \$25,000 threshold."
 20

21 **Section 12.** Section 17-7-140, MCA, is amended to read:

22 **"17-7-140. Reduction in spending.** (1) (a) As the chief budget officer of the state, the governor shall ensure that the expenditure of appropriations does not exceed available revenue.
 23 Except as provided in subsection (2), in the event of a projected general fund budget deficit, the governor, taking into account the criteria provided in subsection (1)(b), shall direct agencies
 24 to reduce spending in an amount that ensures that the projected ending general fund balance for the biennium will be at least 1% of all general fund appropriations during the biennium. An
 25 agency may not be required to reduce general fund spending for any program, as defined in each ~~general bill providing appropriations~~ act for an agency, by more than 10% during a biennium.
 26 Departments or agencies headed by elected officials or the board of regents may not be required to reduce general fund spending by a percentage greater than the percentage of general fund

1 spending reductions required for the total of all other executive branch agencies. The legislature may exempt from a reduction an appropriation item within a program or may direct that the
2 appropriation item may not be reduced by more than 10%.

3 (b) The governor shall direct agencies to manage their budgets in order to reduce general fund expenditures. Prior to directing agencies to reduce spending as provided in subsection
4 (1)(a), the governor shall direct each agency to analyze the nature of each program that receives a general fund appropriation to determine whether the program is mandatory or permissive
5 and to analyze the impact of the proposed reduction in spending on the purpose of the program. An agency shall submit its analysis to the office of budget and program planning and shall
6 at the same time provide a copy of the analysis to the legislative fiscal analyst. The office of budget and program planning shall review each agency's analysis, and the budget director shall
7 submit to the governor a copy of the office of budget and program planning's recommendations for reductions in spending. The budget director shall provide a copy of the recommendations
8 to the legislative fiscal analyst at the time that the recommendations are submitted to the governor and shall provide the legislative fiscal analyst with any proposed changes to the
9 recommendations. The legislative finance committee shall meet within 20 days of the date that the proposed changes to the recommendations for reductions in spending are provided to the
10 legislative fiscal analyst. The legislative fiscal analyst shall provide a copy of the legislative fiscal analyst's review of the proposed reductions in spending to the budget director at least 5 days
11 before the meeting of the legislative finance committee. The committee may make recommendations concerning the proposed reductions in spending. The governor shall consider each agency's
12 analysis and the recommendations of the office of budget and program planning and the legislative finance committee in determining the agency's reduction in spending. Reductions in spending
13 must be designed to have the least adverse impact on the provision of services determined to be most integral to the discharge of the agency's statutory responsibilities.

14 (2) Reductions in spending for the following may not be directed by the governor:

15 (a) payment of interest and principal on state debt;

16 (b) the legislative branch;

17 (c) the judicial branch;

18 (d) the school BASE funding program, including special education;

19 (e) salaries of elected officials during their terms of office; and

20 (f) the Montana school for the deaf and blind.

21 (3) (a) As used in this section, "projected general fund budget deficit" means an amount, certified by the budget director to the governor, by which the projected ending general fund
22 balance for the biennium is less than:

23 (i) 2% of the general fund appropriations for the second fiscal year of the biennium prior to October of the year preceding a legislative session;

24 (ii) 3/4 of 1% in October of the year preceding a legislative session;

25 (iii) 1/2 of 1% in January of the year in which a legislative session is convened; and

26 (iv) 1/4 of 1% in March of the year in which a legislative session is convened.

1 (b) In determining the amount of the projected general fund budget deficit, the budget director shall take into account revenue, established levels of appropriation, anticipated
2 supplemental appropriations for school equalization aid, and anticipated reversions.

3 (4) If the budget director determines that an amount of actual or projected receipts will result in an amount less than the amount projected to be received in the revenue estimate
4 established pursuant to 5-5-227, the budget director shall notify the revenue and transportation interim committee of the estimated amount. Within 20 days of notification, the revenue and
5 transportation interim committee shall provide the budget director with any recommendations concerning the amount. The budget director shall consider any recommendations of the revenue
6 and transportation interim committee prior to certifying a projected general fund budget deficit to the governor."
7

8 **Section 13.** Section 17-7-301, MCA, is amended to read:

9 **"17-7-301. Authorization to expend during first year of biennium from appropriation for second year -- proposed supplemental appropriation defined -- limit on second-year
10 expenditures.** (1) An agency may make expenditures during the first fiscal year of the biennium from appropriations for the second fiscal year of the biennium if authorized by the ~~general bill~~
11 providing appropriations act for the agency. An agency that is not authorized ~~in the general appropriations act~~ to make first-year expenditures may be granted spending authorization by the
12 approving authority upon submission and approval of a proposed supplemental appropriation to the approving authority. The proposal submitted to the approving authority must include a plan
13 for reducing expenditures in the second year of the biennium that allows the agency to contain expenditures within appropriations. If the approving authority finds that, ~~due to~~ because of an
14 unforeseen and unanticipated emergency, the amount actually appropriated for the first fiscal year of the biennium with all other income will be insufficient for the operation and maintenance
15 of the agency during the year for which the appropriation was made, the approving authority shall, after careful study and examination of the request and upon review of the recommendation
16 for executive branch proposals by the budget director, submit the proposed supplemental appropriation to the legislative fiscal analyst.

17 (2) The plan for reducing expenditures required by subsection (1) is not required if the proposed supplemental appropriation is:

18 (a) due to an unforeseen and unanticipated emergency for fire suppression;

19 (b) requested by the superintendent of public instruction, in accordance with the provisions of 20-9-351, and is to complete the state's funding of guaranteed tax base aid,
20 transportation aid, or equalization aid to elementary and secondary schools for the current biennium; or

21 (c) requested by the attorney general and:

22 (i) is to pay the costs associated with litigation in which the department of justice is required to provide representation to the state of Montana; or

23 (ii) in accordance with the provisions of 7-32-2242, is to pay costs for which the department of justice is responsible for confinement of an arrested person in a detention center.

24 (3) Upon receipt of the recommendation of the legislative finance committee pursuant to 17-7-311, the approving authority may authorize an expenditure during the first fiscal year
25 of the biennium to be made from the appropriation for the second fiscal year of the biennium. Except as provided in subsection (2), the approving authority shall require the agency to implement
26 the plan for reducing expenditures in the second year of the biennium that contains agency expenditures within appropriations.

1 (4) The agency may expend the amount authorized by the approving authority only for the purposes specified in the authorization.

2 (5) The approving authority shall report to the next legislature in a special section of the budget the amounts expended as a result of all authorizations granted by the approving
3 authority and shall request that any necessary supplemental appropriation bills be passed.

4 (6) As used in this part, "proposed supplemental appropriation" means an application for authorization to make expenditures during the first fiscal year of the biennium from
5 appropriations for the second fiscal year of the biennium.

6 (7) (a) Except as provided in subsections (2) and (7)(b), an agency may not make expenditures in the second year of the biennium that, if carried on for the full year, will require a
7 deficiency appropriation, commonly referred to as a "supplemental appropriation".

8 (b) An agency shall prepare and, to the extent feasible, implement a plan for reducing expenditures in the second year of the biennium that contains agency expenditures within
9 appropriations. The approving authority is responsible for ensuring the implementation of the plan. If, in the second year of a biennium, mandated expenditures that are required by state or
10 federal law will cause an agency to exceed appropriations or available funds, the agency shall reduce all nonmandated expenditures pursuant to the plan in order to reduce to the greatest
11 extent possible the expenditures in excess of appropriations or funding. An agency may not transfer funds between fund types in order to implement a plan."

12
13 **Section 14.** Section 17-7-304, MCA, is amended to read:

14 **"17-7-304. Disposal of unexpended appropriations.** (1) All money appropriated for any specific purpose except that appropriated for the university system units listed in subsection
15 (2) [or state money appropriated for the state children's health insurance program provided for in Title 53, chapter 4, part 10,] and except as provided in subsection (4) must, after the expiration
16 of the time for which appropriated, revert to the several funds and accounts from which originally appropriated. However, any unexpended balance in any specific appropriation may be used
17 for the years for which the appropriation was made or may be used to fund the provisions of 2-18-1203 through 2-18-1205 and 19-2-706 in the succeeding year.

18 (2) Except as provided in 17-2-108 and subsection (3) of this section, all money appropriated for the university of Montana campuses at Missoula, Butte, Dillon, and Helena and the
19 Montana state university campuses at Bozeman, Billings, Havre, and Great Falls, the agricultural experiment station with central offices at Bozeman, the forest and conservation experiment
20 station with central offices at Missoula, the cooperative extension service with central offices at Bozeman, and the bureau of mines and geology with central offices in Butte must, after the
21 expiration of the time for which appropriated, revert to an account held by the board of regents. The board of regents is authorized to maintain a fund balance. There is a statutory appropriation,
22 as provided in 17-7-502, to use the funds held in this account in accordance with a long-term plan for major and deferred maintenance expenditures and equipment or fixed assets purchases
23 prepared by the affected university system units and approved by the board of regents. The affected university system units may, with the approval of the board of regents, modify the long-term
24 plan at any time to address changing needs and priorities. The board of regents shall communicate the plan to each legislature, to the finance committee when requested by the committee,
25 and to the office of budget and program planning.

26 (3) Subsection (2) does not apply to reversions that are the result of a reduction in spending directed by the governor pursuant to 17-7-140. Any amount that is a result of a reduction

1 in spending directed by the governor must revert to the fund or account from which it was originally appropriated.

2 (4) (a) Subject to subsection (4)(b), after the end of a fiscal year, 30% of the money appropriated to an agency for that year ~~by the general appropriations act~~ for personal services,
3 operating expenses, and equipment, by fund type, and remaining unexpended and unencumbered at the end of the year may be reappropriated to be spent during the following 2 years for
4 any purpose that is consistent with the goals and objectives of the agency. The dollar amount of the 30% amount that may be carried forward and spent must be determined by the office of
5 budget and program planning.

6 (b) (i) Any portion of the 30% of the unexpended and unencumbered money referred to in subsection (4)(a) that was appropriated to a legislative branch entity may be deposited
7 in the account established in 5-11-407.

8 (ii) After the end of a biennium, any portion of the unexpended and unencumbered money appropriated for the operation of the preceding legislature in a separate appropriation act
9 may be deposited in the account established in 5-11-407. The approving authority shall determine the portion of the unexpended and unencumbered money that is deposited in the account.
