RE: Montana public Broadcasting
FROM: Germaine Conrad, MPBS board member

I fervently believe that any support you can give to our state's Public Broadcasting Service will be put to economically good use.

The revelations and information provided by our service are consistently of highest quality, including Montana productions such as Backroads of Montana, Montana Ag Live, and regular public affairs programs.

KUFM-TV and KUSM-TV tie this state together and offer our citizens a sort of televised equivalent to the public Library
