Questions submitted for USDA APHIS

1. Is APHIS in agreement with the BAP?
2. How does USDA/APHIS see the BAP coordinating with the NBEZ proposal?
3. If MT implements the BAP and discovers another infected cow, what happens to MT's status?
4. Is the surveillance period after the BAP adequate to maintain a Class Free Status?
5. How does APHIS see the presence of brucellosis in elk affecting MT's obtainment of the class-free status?
6. If the legislature did not approve funding for the BAP, how would that affect MT regaining its Class Free Status?
