

EXHIBIT 21
DATE 3/26/09
SB 406

Dear Mr. Chairmen and members of the committee,

I urge you to oppose bill 406. This bill would place pregnant women in conflict with their fetuses creating great uncertainty regarding liability of health care providers who treat pregnant women. This amendment would attack women's right to privacy, allowing investigation of women who miscarry and questions a woman's ability to make decisions about birthing choices. Montanans do not support divisive attacks on the right to privacy and attempts to ban abortion.

Thank you for your time,

Laura Olsonoski
