SENATE AGRICULTURE
EXHIBIT NO. 15
DATE 2-10-2009
BILL NO. SB 232

Dear Senator Squires,

Here are some posters & letters that this years 3rd & 4th graders wrote. They have been very excited about all the press they've received. Thanks so much for the newspapers :)! Let me know if I can do anything else. There are a few parents who are willing to take kids to Helena if you would like.

Happy January.

Dear Senator Squires,

We want whole wheat huckleberry pancakes to be the state food symbol of Montana because Montana has so many state symbols. We should have a state food. Whole wheat huckleberry pancakes fit Montana really well, and they are easy to make. Whole wheat huckleberry pancakes taste good, and the whole wheat is healthy, and so are huckleberrys. We <u>really</u> hope that the whole wheat huckle-berry pancakes become the new state food symbol.

Bailey

Dear, Senator Squires

We would pick this one because we (Montana) have in the eastern part of Montana we grow wheat, and on the western part of Montana we grow huckleberrys.

Sincerly,

Chelsey Lynn Peters

Dear Senator Squires,
Whole wheat
Huckleberry Syrup pancakes is a
good idea because est Montana wheat grows
and west Montana huckleberrys grow.
Huckle berrys are good and sweet.
Wheat is good for you to it is very
healthy I love them.

Sincerly,

Dear Senator Squires,

We were encouraged from a story we read about 3rd graders in Minnesota making a food symbol for their state. We all wanted to make one too. So we thought about it. The class wanted a healthy food and something very common in Montana. So we decided a Whole Wheat Huckleberry pancake! But unfortunately we had to wait until 2009. Please help us Make the new future state symbol.

Sincerely Maggie Rosso
