RE:            Claimant:  
                 Date of Event: 9/22/2003  
                 Claim No:  
                 Employer:

To Whom It May Concern:

The Montana Supreme Court recently held that an attorney fee lien statute applies to workers' compensation medical benefits recovered due to efforts of the claimant's attorney in a workers' compensation claim. The claimant's attorney has notified our office an attorney fee lien is being claimed on the medical benefits. Consequently, we are enclosing payment for your charges in the amount of 80% of the Montana Relative Value Fee Schedule as a result of the attorney fee lien.

Should you have any questions regarding the lien, you can contact the claimant's attorney directly.
