RE: SB 321

Sen. Curtiss asked how often the National Change of Address registry (NCOA) is updated. I placed a call to the NCOA help desk. They informed me that they update their database weekly. The database is then sent to licensed vendors. Each licensee updates its database depending on the level of their license. High end licensees receive the updated database weekly and then update their list within a week. Lower end licensees receive updates from the NCOA on a monthly basis and then update the list they provide.

Depending on the level of the licensee, a person purchasing the list would have a list that had been updated anywhere within two weeks to two months.
