Subject: Public comment for HB 75 - Senate Natural Resources Committee (Monday)

Ms. Hern - please see that this email is forwarded to members of the Senate Natural Resources Committee. Thanks.

Dear Committee members:

Please vote NO to moving forward HB 75. The failure of this bill to properly place the burden of clean-up on environmental violators is an affront to the taxpayers of Montana. Violators should place sufficient bond to insure and secure clean-up. Montana taxpayers and our lawmakers should not be making it easier for violators to walk away from their responsibilities. What is Montana? A dumping ground for bad irresponsible businesses and landowners?

Please vote NO.

Sincerely,

Dana M. Boruch
