I'm here to speak in favor of SB 400. I want you folks to understand the importance of this bill. I and many other outfitters like me have had our businesses destabilized by uncertainty over draw success. Many of my clients and others that want to come to MT and hunt need and deserve to know if they are going to be able to hunt in MT and spend their hard earned money. I am finding that a lot of my clients and many other out-of-state nonoutfitted hunters are starting to look at hunting other states, such as CO that will let them buy a tag over the counter or NM were they can purchase a land owner tag. I cannot compete with that and most other public land outfitters can't either. Everyone in this room needs to understand that if nothing can be done to stabilize the hunting aspect of my hunting operation I will pull up 42 years of family roots in the Mt outfitting industry and move them to a state that wants and appreciate's me and my clients. You all have a chance to do the right thing. I hope you make the decision that keeps me and others like me in MT!
