

# Health Care Compact Process

Current Legislative Session

U.S. Congress

Future Legislation

Montana  
Healthcare Compact Bill

- Two or more states pass the Healthcare Compact and sign it into law.
- Healthcare Compact does not become effective until U.S. Congress consents and the President signs it into law.

- Petition Congress to pass legislation stating that it consents to the Healthcare Compact
- Simultaneously, Congress will pass implementing legislation appropriating federal healthcare funds to member states
- President signs into law.
- Healthcare Compact becomes effective.

Montana  
Health Care Legislation

- Member states may enact legislation to regulate healthcare within their state and may request corresponding federal healthcare funds.
- Member states create the interstate advisory health care commission.

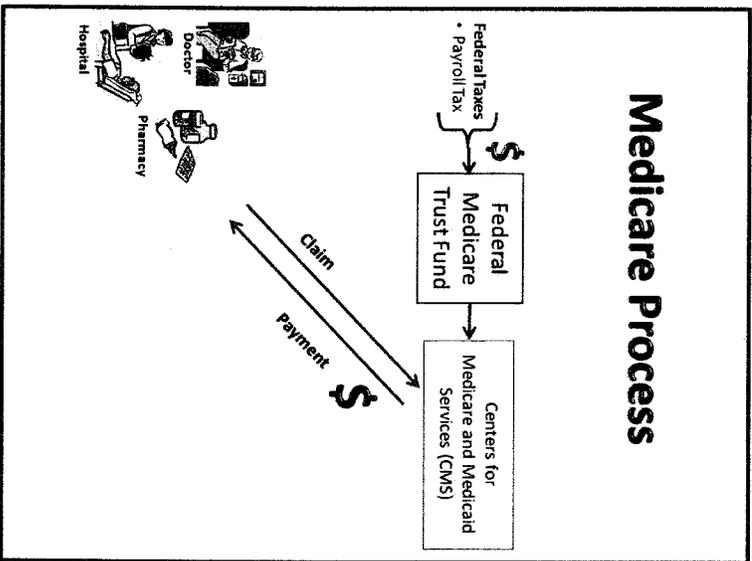

Healthcare Compact is enabling legislation. It does not enact healthcare policy or change any policies currently in effect.

Healthcare Compact is not effective until Congressional consent is given.

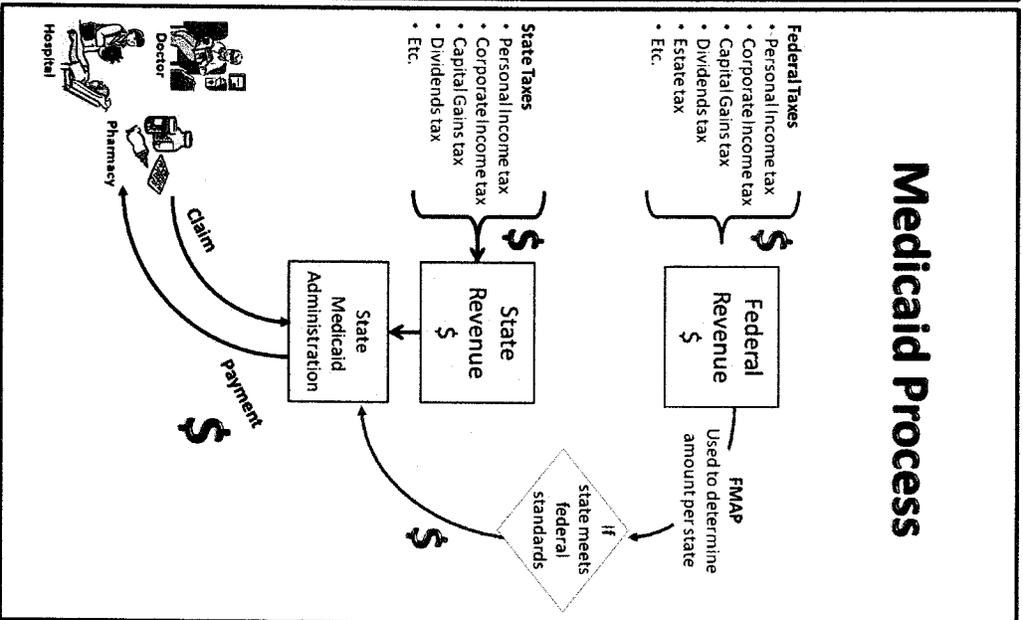

Following Congressional consent, member states may enact legislation to create state healthcare programs.
