HB 434

Mr. Chairman members of the committee for the record I am Spook Stang Executive VP of the Motor Carriers of Montana. MCM and its members would like to go on record in support of HB 434.

I believe the Mr. Berry has done a good job of explaining the bill and would like to point out that we full c support the language changes on page 4 lines 1-10 that clarify what an arranger is. Under current law one of my members who delivers hazardous materials may have no knowledge of the fact that the receiver disposed of the material other than through the proper channels. I.E. The nozzle of a gas pump.

I have attached language below and we support the bill.

- 1 deleterious substance from a facility:
- 2 (a) a person who owns or operates a facility where a hazardous or deleterious substance was disposed
- 3 of;
- 4 (b) a person who at the time of disposal of a hazardous or deleterious substance owned or operated a
- 5 facility where the hazardous or deleterious substance was disposed of;
- 6 (c) a person who generated, possessed, or was otherwise responsible for a hazardous or deleterious
- 7 substance and who, by contract, agreement, or otherwise, arranged intended to arrange for disposal or treatment
- 8 of the substance or arranged with a transporter for transport of the substance for disposal or treatment; and
- 9 (d) a person who accepts or has accepted a hazardous or deleterious substance for transport to a
- 10 disposal or treatment facility.

Thanks for your consideration.

Spook
