

Burst pipe floods high school

Water pours into 'pod' at Glacier

The Daily Inter Lake

Crews were working to clean up significant water damage at Glacier High School Saturday after a pipe burst, according to Activities Director Mark Dennehy.

The gymnasium was not damaged, Dennehy said, but water spilled into a large area in the B pod portion of the building.

The flood, which officials suspect was caused when a frozen fire suppression line broke, started in the second floor B200 pod, according to an e-mail from the school. Water seeped into the B100 pod on the main floor.

Eleven classrooms, a special education pod, administrative offices and the school's main office were affected.

A youth wrestling tournament already under way was

canceled, and attendees were asked to leave the building after the burst pipe set off an alarm.

Kalispell Fire Department Assistant Chief Dave Dedman said firefighters shut off the water flow and attempted to minimize damage after responding early Saturday afternoon.

Ceiling tiles, built-in cabinets, walls, carpet, filing cabinets, furniture, computers, televisions, phones, interactive whiteboards, books and teacher resources were damaged, according to the school.

A total price tag for the injured property was not released.

Dennehy said classes would continue despite the incident. Full attendance by all students and staff is expected, according to the e-mail.

Classes and offices damaged in the flood have been relocated to other areas within the building. Charts in the commons area will direct students and staff to those new locations.

"Our goal is we're going to carry on with school and everything else, but we'll have some significant work to do," Dennehy said.

NOTE: We may withdraw this proposal if not accepted within 15 days.

****** ALL PAST DUE BALANCE ARE SUBJECT TO A 1-1/2% PER MONTH SERVICE FEE, PLUS ANY APPLICABLE COLLECTION FEES."**

Limitation of D2 Fire Sprinkler Company, LLC Liability

Client acknowledges that D2 Fire Sprinkler Company, LLC, is not an insurer and that the payments made to D2 Fire Sprinkler Company, LLC by client on this project are based upon the value of the system and/or services provided and are unrelated to the value of client's property or business. In recognition of the relative risks and benefits to the client and D2 Fire Sprinkler Company, LLC resulting from the work to be performed by D2 Fire Sprinkler Company, LLC, the risks have been allocated such that the client, as well as the client's assigns, agents and representatives, agree, to the fullest extent permitted by law, to limit the liability of D2 Fire Sprinkler Company, LLC, its' officers, directors, employees or D2 Fire Sprinkler Company, LLC's parent, subsidiaries, affiliates, consultants, subcontractors, vendors, to a maximum of \$10,000 or the amount of the contract/price of work to be performed, whichever is less, and client does hereby release D2 Fire Sprinkler Company, LLC from any claim in excess of said limit. This limitation of liability shall apply to all judgments, claims, liability, cost, claim expenses, and all other damages or losses of any nature sustained by client, contractor or subcontractors, or any other party claiming by or through them. This limitation of liability shall be enforceable, 1) Regardless of the amount of any actual damages sustained, if any, as a result of this work; and 2) even if the loss or damage in issue is caused or alleged to be caused by the negligence, breach of warranty, defective products, violations of the deceptive trade practices act, or other fault of D2 Fire Sprinkler Company, LLC or D2 Fire Sprinkler Company, LLC's parent, subsidiaries, affiliates, consultants, subcontractors, vendors, or their respective employees, agents or representatives. Should client desire a different limitation of liability, such is available as an additional service at an additional cost. If payment for work provided in this agreement is not paid when due, client agrees to pay all costs of collection including attorneys fees as well as interest computed at the highest rate allowable by applicable state law.
