

Jack King, Ron Efta, and Bret Smeltser all do an excellent job on the Board of Oil and Gas Conservation and I commend Governor Schweitzer for reappointing them. With the increasing oil and gas activity in Montana, their experience and expertise is very beneficial in our decision making. On behalf of the rest of the board and staff, I would ask that the committee concur with the recommendation.

Thanks for your arduous work during the session.

Linda Nelson  
Chairman, BOGC
