IRVIN ROSENFELD MY MEDICINE

How I Convinced the U.S. Government To Provide My Marijuana and Helped Launch a National Movement

*U. S. population: **Over 300 million***
*Total number of patients in the history of the Federal Medical Marijuana program: **13***
*Total surviving Federal Medical Marijuana patients in 2010: **4***
*Number of living former U.S. Presidents: **4***

Read the amazing story of how Irv Rosenfeld became one of the select few American citizens to have the U.S. Government grow and supply his medical marijuana for over a quarter of a century and counting. And why he is one of only four remaining Federal patients under a secretive and unique Government program, which will terminate when the patients do.

Now, after receiving 115,000 Federal Medical Marijuana cigarettes, he looks back at a ten-year struggle to become the second Federal Medical Marijuana patient. Through his gripping story, you will see how he has educated millions about the benefits of this important and understudied medicine and helped further the use of Medical Marijuana both in this country and worldwide.
